

# OFF PRIME

## COMEDY SERIES

*Off Prime* is a comedy series that relates the “almost real” life of Virgine Efira, outside of the M6 French television studios where she is a hit TV host.

We discover a “Virginie” who is never afraid of looking ridiculous and who often gets into uncomfortable situations, both with her friends and in her professional relations. While her fans think she leads the life of a star, offstage Virginie is actually a rather normal person who shares an apartment with a small group of friends who are all a bit lost.

Her life follows the ups and downs of her banal love affairs and passing flirts, while she waits to meet true love.
