

# WOMEN!

## WOMEN SPOOF SERIES

*Women!* is a comedy series featuring a pair of actresses who portray the multiple feminine clichés of our contemporary society. While the media polish the image of the modern woman to make it glamorous and marketable, this series proposes to explode these formatted and consensual codes by using humor as a weapon to denounce them.

With a totally transgressive and off-the-wall tone, the actresses bring absurd, yet quite convenient solutions to common tricky situations of everyday life - a dream come true for a majority of our lady viewers!
